DETAILED ACTION

Title Change

1. An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. 1.312. To ensure consideration of such an amendment, it **must** be submitted no later than the payment of the Issue Fee.

1. Pursuant to MPEP 606.01, the title has been change to read: --SYSTEMS AND METHODS FOR PROVIDING OFF-LINE BACKUP OF A PROGRAMMABLE DEVICE'S CONFIGURATION DATA TO USERS OF PROGRAMMABLE DEVICES AT A SERVICE LOCATION--.

Allowable Subject Matter

1. Claims 1-20 are allowed.

2. The following is an examiner's statement of reasons for allowance: independent claims 1, 5, 11, 14 and 18 teach receiving at a service location user-specific data associated with a device and a user, storing the user-specific data, keeping the user-specific data current or receiving user-specific data at the service center over a network, receiving notification that a user replacement device is needed and configuring the replacement device with the user-specific data at the service location without establishing a connection between service location and the user before the user receives the device.

3. The closest prior art of record, Selitennikoff and Winkel, does not teach receiving user-specific data at a service location and using said data to configure a replacement device before the user receives the device without establishing a connection between the service location and the user. Therefore, independent claims 1, 5, 11, 14 and 18 are allowable over the prior art.

4. Claims 2-4, 6-10, 12-13, 15-17, and 19-20 are allowed by the same rational as well as the further limitations added by these dependent claims.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
